THURSDAY, JUNE 16, 1898.

NOTICE TO DEMOCRATS.

At a meeting of the Democratic District Committee for the Ninth Congressional district held at Maysville, Ky., on Wednesday, June 8th, 1898, in response to a call by J. N. Kehoe, Chairman, ex-officio, it was ordered that a district convention be held at Cynthiana, Wednesday, August 10th, 1898, beginning at 11 o'clock a. m., for the purpose of nominating a Democratic candidate for Congress to be voted for at the coming November election.

Delegates will be selected by the various counties as their respective committees may determine on Saturday, August 6, 1898, at 2 o'clock p. m., at such place as the Chairman of the County Committee may designate.

The County Committees shall be called together on Saturday, July 9, 1898, to determine the manner of holding county meetings.

If precinct meetings are determined upon, they shall be held on Saturday, August 6th, at 2 o'clock, and a county delegate convention shall be held at such place as the Chairman of County Committee may designate, on Monday, August 8th, at 2 o'clock p. m.

If mass conventions are determined upon, they shall be held on Saturday, August 6, 1898, at 2 o'clock p. m.

Each county shall be entitled to one delegate for each two hundred votes cast for the first elector on the Bryan-Sewall ticket, 1896, and one delegate for each additional one hundred votes or fraction over one hundred votes cast for said elector.

J. N. KEHOE, Chairman.

G. R. Keller, Secretary.

It is now given out that Havana is almost impregnable so strongly has it been fortified. Well, we have certainly given plenty time for such work.

Ever since war was declared Congressman Colson has been chasing back and forth between Frankfort and Washington City in his efforts to secure the position of Colonel of a Kentucky regiment. If he's so awfully anxious to fight the Spaniards what's the matter with his enlisting as a private?

GREENUP GETS IT.

The Republican Congressional Convention Will Be Held at That Place On July 19th.

The Republican Executive Committee of this Congressional district met at the Central Hotel Wednesday and selected Greenup as the place to hold the coming convention.

Tuesday, July 19th, was decided on as the date. It was also decided that the various counties shall select their delegates by mass convention on Saturday, July 16.

The counties will be entitled to one delegate for every 100 votes or fraction over fifty cast for McKinley.

It is claimed Judge Pugh wanted the convention held June 28th and also wanted the delegates selected by primaries, but he lost out.

Died at Hopkinsville.

The remains of Mrs. Josie B. Coleman arrived on the 10 o'clock train this morning from Hopkinsville where she died Tuesday night, aged twenty-seven. Deceased was a daughter of Mr. Simon Ellis, of Rectorville, and granddaughter of Mr. Jesse Ellis, of Aberdeen. Her husband survives. The remains will be interred at Olivet Church, near Rectorville, this afternoon.

Expensive Bombardments.

A shell thrown from a 24 ton quick-firing gun rushes through the air at the velocity of 4,900 feet per second, striking its object with a force equal to that of 11,230 tons falling one foot. And yet, comparatively speaking, they are very harmless.

Thus, during the one-day bombardment of Alexandria by the British fleet of twelve ships, lasting from 7 a. m. to 4:30 p. m. no less than 3,165 shells were thrown into the town, and yet not more than 800 Egyptians were killed—that is, it took, roughly speaking, six shells to kill one man.

Again, during the Franco-German war, the Germans threw 300,000 shells into Belfort, only killing sixty Frenchmen, or 500 shells to kill one man.

At Strasburg, in the same war, it took eighteen shells to kill every man. And at the siege of Paris 110,000 shells only killed 107 and wounded 209.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on J. James Wood, druggist, and get a trial bottle free. Regular size 50 cents and \$1. Every bottle guaranteed, or price refunded.

THE WHEAT CROP.

One of the Finest Ever Grown in Kentucky.
Outlook For Corn and Tobacco.
Weekly Bulletin of the
Weather Bureau.

The rainfall the past few days has been in the form of scattered thunder showers, which hardly gave sufficient moisture for the best crop development. The abundant sunshine and high temperature, the latter continuing with slight abatement throughout the night, were beneficial to all crops. Wheat is being harvested and is turning out very satisfactorily, many reports stating that a larger or finer crop was never heretofore grown in the State. Corn is progressing very well and is in an excellent state of cultivation. Tobacco planting is about completed and the early fields are being worked. Owing to a lack of seasonable weather for transplanting, the acreage of this crop will be considerably reduced, and there is some complaint of injury from cut-worms, but taking the State as a whole, the outlook is very encouraging. Oats, grasses and meadows are in good condition. The hemp crop is small in acreage and not promising. Fruit will, as heretofore reported, be scarce and of an inferior quality.

Western Section.—Wheat is being harvested, and although the yield will be abundant, it will not exceed expectations, as there is considerable complaint of rust and smut. Corn planting is completed. The early crop has received third plowing generally and is looking well. Almost the entire crop of tobacco has been transplanted, and, with very few exceptions, is in excellent condition. In certain localities the stand has been impaired by cut-worms. Oats are whitening and are generally in fair condition. The cutting of clover has begun. Timothy, of which there is a good crop, will soon be ready for the mower. Both Irish and sweet potatoes are doing well. Gardens have improved rapidly.

Central Section.—High temperature continued with very little rain until the latter part of the week, when local showers became more frequent. Rainfall has been very unevenly distributed, and in many localities certain crops have suffered considerably from drouth. Wheat harvesting has begun under most favorable circumstances generally. There are more complaints this week of rust and smut than heretofore, but prospects for a very good crop are still generally maintained. The recent period of dry weather has enabled farmers to make such good progress in cultivation of corn, tobacco and gardens, that the harvesting and hay cutting can be carried on without detriment to other farm work. Corn is in good condition generally. It has not been injured to any extent by the drouth. Oats are heading, and apparently are doing fairly well. Rain was much needed for this crop when the recent showers occurred. The hemp crop is poor and acreage small. Hay is being cut, the yield not quite so heavy as was expected. Meadow grass has been cut short by dry weather. A large crop of millet has been sown in portions of this section. Tobacco has been injured more by the dry weather than any other crop. The drouth coming on in the middle of the transplanting season caused more serious results than if occurring at any other time. Transplanting is not completed, though plants are almost too large for setting, and many of the plants in bed have been killed as well as many of those set late. These discouraging conditions are not general, however. Reports concerning this crop are very varied in tone, but there is no doubt that the crop is materially reduced from what was expected, both as to acreage and condition.

Eastern Section.—Warm weather with sufficient sunshine has continued. Scattered showers occurred during the last half of the week, being heaviest in the northern counties, where some damage resulted to wheat, corn and tobacco from the high winds and hail which accompanied them. Corn is growing well. Wheat continues in good condition. In the southern counties more rain is needed. It is beginning to ripen and will be ready to harvest in about ten days. Oats would be benefited by more rains. Tobacco setting is practically completed, but the dry weather during the early part of the week was injurious to a certain extent. Grasses and clover are showing the effects of dry weather. Early clover is being cut in some counties. Gardens have improved. Apples are falling and other fruits remain about as previously reported.

GEO. E. HUNT,
Section Director, Louisville, Ky.

MR. JOHN B. GIBSON rested better Wednesday than for several days.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cent per box. For sale by J. James Wood.

The Royal is the highest grade baking powder known. Actual tests show it goes one-third further than any other brand.

ROYAL BAKING POWDER CO., NEW YORK.

FOR SALE.—A typewriter, almost new. Has been used but little. Apply at this office.

A NICE assortment of watches, clocks, jewelry, knives, forks, spoons, etc., at Clooney's. No ancient stock. Prompt attention to all kinds of repairing. Next door to First National Bank.

REV. FERDINAND C. IGLEHART, who married Miss Nannie Stewart, of this city, some years since, is now pastor of a large and prominent church at Newburgh, New York. He stands very high as a preacher and writer.

MR. J. W. DOWNING and Miss Jennie Byar will be married this afternoon at 3 o'clock at the home of her parents, near Sharon, Bracken County. The bride taught school in the Downing neighborhood for some time. The groom is a well-known farmer of this county.

CENTRE COLLEGE.

MR. HORACE C. WILSON Graduated With High Honor—MR. Henry Waller Receives Degree of Master of Arts. The New President.

The seventy-fifth annual commencement of Centre College at Danville last week was one of the most successful the college has ever had. This is especially gratifying from the fact that the college has been without a President since the death of the lamented Dr. W. C. Young, which occurred September 16, 1896. The want of a President has been seriously felt, but the work of the college has been successfully prosecuted for the last two years without a President.

At the beginning of the commencement exercises Dr. J. M. Blayney surprised the large audience by announcing that the Board of Trustees had elected the Rev. Dr. W. C. Roberts, of New York, President of the college, and that he had accepted. Dr. Roberts, who was present, then came forward and in a graceful speech assumed charge; he conducted the exercises as one thoroughly at home in his new position, and made a very happy impression. The Danville Advocate says: "The new President has a fine personal appearance, and an easy, graceful presence. He is a fluent speaker, and his remarks on delivering the diplomas aroused anew the pride of the citizen, the student and the alumnus in the welfare of old Centre."

Dr. Roberts is a little over sixty years of age, is in vigorous health and looks as if he had many years of usefulness before him. He is one of the most distinguished men in the Presbyterian ministry; was for many years a successful pastor of some of the most prominent churches, was elected Secretary of the Board of Home Missions, but resigned that position to accept the Presidency of Lake Forest University of Chicago; he raised nearly a million dollars for that institution, and placed it upon a fine footing as one of the leading educational institutions in the West. But when the Board of Home Missions got into difficulties, he was again urged to accept the Secretaryship, which he finally did, believing it to be a call of duty; he carried this great Board successfully through the years of financial depression through which the country has passed; he has but recently resigned this position. Centre College is fortunate in securing, as its President, a man of such commanding ability and who is so thoroughly fitted for the work. With Dr. Roberts at the head, the friends of the college look forward to a new era of prosperity and usefulness for this old and honored institution.

At the recent commencement there were thirty graduates in the academic department and seventeen in the law department, making one of the largest classes in its history. It was generally spoken of as one of the most promising classes that had graduated for several years.

Maysville was unusually well represented at this commencement. The Rev. Dr. John Barbour, who is well known here, delivered the annual address before the Alumni Association. Mr. Horace C. Wilson graduated with high honor, and was chosen to deliver one of the commencement orations; and the degree of Master of Arts was conferred upon Mr. Henry Waller, of this city.

Friday's Cash Sale.

UMBRELLA TALK.—An umbrella in the hand is worth two in the store—when that store is blocks away and it's raining torrents. There are two kinds of Umbrellas; one you buy, the other you borrow. If uncomplimentary facts may be recorded we believe the latter kind most popular. In selecting an umbrella look to the name of the maker. That's the secret of our successful umbrella business. We buy of manufacturers who guarantee their goods to us and we in turn guarantee them to our customers. Low prices alone are no attraction. It's not getting things cheap; it's getting good things cheap. Everything here is cheap; some are very cheap, but they had to be something more than cheap first. That's the strong point in the Umbrellas we offer Friday. It's merit, style and value for the money everybody wants, even in Umbrellas, and if you come here you'll get it. We won't insist upon you purchasing; we won't urge you, but the worth in the umbrellas will. Some people object to parachute drops, but the kind we'll have Friday will be welcomed by all as the chief coin-clincher of the city. Coriolla Silk Umbrellas, steel rods, slender ferules, silk tassels and cases, handles of many patterns. Choice for Friday only \$1. After that the regular \$1.50. Don't think the 50c. difference between sale and regular price represents our profit. We don't get 50 per cent. on Umbrellas. We've gone into the cost on these as the wisest advertising of the season.

D. HUNT & SON.

Next Saturday's Flyer!

On next Saturday, the 18th, and on that day only, you can buy, for spot CASH, choice of our STRAW HATS, the Hopkins included, one-third off the regular price.

HECHINGER & CO.

1898-City Taxes-1898

On and after July 1st tax receipts for 1898 are due and will be in my hands for collection.....

JAMES W. FITZGERALD.

OFFICE: KEITH-SCHROEDER HARNESS COMPANY.

Brilliant large-size Berry Bowls, 16c.
CASH sales only are made at these prices, and you are invited to call and examine.

C. D. Russell & Co.

River News.
Still rising at Pittsburg last evening. Stanley for Kanawha to-night and Bay down.
The Keystone State re-enters the Pittsburg trade this evening, passing up to-night.
Bottom Prices.
Gasoline stoves and refrigerators.—W. F. Power.
THE Court of Appeals has reversed the case of Swift's executor against Donahue, from Fleming County.

MR. ROBERT BISSETT has secured the agency for Eastern Kentucky of the Triumph Automatic Acetylene Gas Machine. This is especially adapted to furnishing gas for residences, stores, churches, factories, hotels, schools and small towns and villages. Acetylene gas is declared to be the most perfect, illuminant known. Cheap and perfectly safe. Consult Mr. Bissett.

The season is now at hand for HOME-GROWN, and as usual my house will be headquarters for the very best fruit in the market, both wholesale and retail. Also as the season advances I have arranged to have each day shipments of

CULTIVATED BLACKBERRIES, RASPBERRIES, CHERRIES, PEACHES, ETC.

The fruit will be placed on the market here on the same day it is picked, and buyers can always depend on getting the very freshest and best stock the country affords. Remember the Strawberry season only lasts three weeks, so don't put off buying until too late.

R. B. LOVEL

THE LEADING GROCER.

Y. M. C. A. Matters.
At the men's rally Sunday Rev. Dr. Molloy presented the subject "Two Roads Only" to an attentive audience, his words being well chosen. Everyone was benefited by his remarks on this excellent subject. Mr. J. B. Wood led the meeting and Mrs. Ed. Geisel presided at the piano. Cool lemonade was served during the meeting.

A Clever Trick.
It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at J. Jas. Wood's drug store.
